MEETING OF COUNCIL. An Invitation from Colored Mon for Council to Celebrate the Fourth of July with them Considered an insult

The regular meeting of the City Council was

held last night, at which were present : Mayor

Pillsbury, presiding; Greene, Voigt, E. W. M. Mackey, Collins, Potter, Geddings and Cun-

ningham, white; Holloway, Small, Thorne, Brown, McKinlay, L. F. Wall, E. P. Wall, and Hampton, colored. There was apparently no interest taken in

this meeting, as there were few persons present besides the members.

At half-past eight o'clock the Mayor came in,

the roll was called, a quorum ascertained to be present, as the meeting was called to order.
On potion of Alderman Cunningham, the reading of the minutes of the previous meeting were dispensed with. PETITIONS. The following petitions were read and dis-

posed of:

Petition of officers and Members of Prudence Fire Company, No. 4, asking Council to admit them among the class of companies the apparatus of which are owned by the city, stating that they were organized in 1849, and though they had lost their engine during the war, had retained their organization. Referred to the Fire Committee.
Petition of John O'Mara, asking Council for

\$2500 on Fire Loan bond, was referred to the Finance Committee.

Petition of Mrs. S. G. McKenzie, asking for \$5000 on Fire Loan bond, was referred to the same committee. Petition of John Morrissey to have his wife

removed to the Lunatic Asylum, at Columbia, was referred to the Mayor, with power to not. A communication from the Harbormaster,

calling the attention of Council to an act of the Legislature, in reference to the appointment of Members of the Board of Pilotage, was referred to a special committee-Aldermen Voigt, Greene, and McKinlay, (colored,) committee. Petition of residents on Mc szine-street, calling attention of Council to the condition of the pavement, was referred to the Committee

on Streets. A communication from the Commissioners of the Markets, asking that the Upper Markets be repaired at once, was referred to the Committee on Public Buildings.

Report of the City Sheriff for May, 1869, showing that \$4820 75 had been paid into the City Treasury, was read, received and ordered to be published for information.

Report of the Harbormaster for the month

of May, 1869, showing that \$315 had been paid into the City Treasury, was read and received. Report of Captain of Police, showing that \$207 had been paid into the City Treasury, was read, received, and ordered to be published for information.

A number of small bills were referred to the Committee on Accounts. Petition of A. F. Shirar to erect a shed was

referred to the Committee on the Erection of Buildings. Petition of N. R. Dobson to put up a build-

ing was referred to the same committee. A communication from Lieutenant Aldrich

United States Army, stating that some of the outbuildings on Citadel Green were no longer required by the military, was read and referred to the City Treasurer.

A report in reference to the Blue Ridge Rail-

road was not read, but was ordered to be pub-Report of A. C. Welton, regarding the pro-

gress and condition of the Artesian Wells, was read, received, and ordered to be pub-A communication, signed by Magistrate W.

H. Mishaw, (colored) inviting the Council to White Point Garden, was read. Alderman Collins opposed its acceptance.

McKinlay (colored) favored it, and, on his

motion, it was accepted. REPORTS FROM THE WARDS.

The Mayor commenced calling for the reports from the wards. There was no response until Ward No. 8 was called, when Small, Day. arose and said very deliberately, "I have a bill to present for division of chimney. sweeps;" whereupon he drew a ponderous dooument from his vest pocket with all the solemnity and care that one would draw a pistol to shoot his best friend, and sent it to the clerk, who read it, as a "Bill to amend an ordinance to establish the office of chimney contractors." providing, first, that four contractors be anqually elected by Council, and that each one give bond in the sum of \$2000 for the faithful performance of his duties; second, that all vacancies among the contractors or in any office in the gift of Council be filled by an election after ten day's notice has been given in any of

the city papers by the Mayor.

On motion of Alderman Collins, the bill was read the first and also the second time, and then an attempt was made to put it upon its passage, which Alderman Greene asserted was

"acting with Indecent haste." Some discussion ensued in regard to the second section (which, by the way, was so carefully worded that at first it did not arouse the suspicion of those interested in the adopt ed ordinance only requiring five days' notice before an election,) atter which, on motion of Alderman E. W. M. Mackey, a further consideration of the bill was postponed until a future

meeting.

Small, colored, here rose to move an adjourn-ment, when Alderman Collins sprang to his feet and said that he would like, before Council adjourned, to make an explanation as regarded his reasons for opposing the acceptance of the invitation signed by Mishaw, as

chairman of the committee tendering it.

No one seeming to care whether be made the explanation or not, Alderman O. taking it for granted that permission had been obtained, proceeded to say that a short time since he had received a letter written evidently by an intelligent person, stating that Council would be invited to this celebration, as Republicans, and they dared not refuse to accept the invitanounced as Democrats.

Toe speaker was continuing his remarks about his considering the invitation as an insult, when he was interupted by Alderman Cunningham's sharply uttered motto: "I move

to adjourn." The Mayor hurriedly put the motion, which was carried.

The Council then adjourned.

The Columbia Phonix of yesterday says:

Colonel S. A. Pearce, late of the United States

Army, who, as agent of Senator Sprague, of Rhode Island, purchased the Columbia Canal and a large portion of the Kınsler "brickyard" property, several months ago, is now in Columbia, accompanied by Mr. G. C. Tinsley, a surveyor, who has commenced making a survey and estimates for widening and deepening the canal. Colonel Pearce states that he has resigned his position in the army, for the purpose of taking charge of this work ; and that Mr. Sprague is determined to push shead with it. Active operations may not be commenced during the summer months, but early in October, Colonel P. asserts, a heavy force of workconcerning the development of the manufacrather hear more of active operations and less

Esq., was unanimously elected President of said company. The regular quarterly examination of candidates for the office of teacher in the Public Schools will be held at the Normal School, dt. Philip-street, at nine o'clock on Saturday morn-

Officer Coates yesterday upon the charge of stealing a meerschaum pipe from Dr. Ancrum. The same officer arrested the negro who stole watch from Mr. Mcrae.

An election for officers for the ensuing year follows: President-Mrs. M. A. Snowden. Vice-Pres-

ANNUAL REPORT. Another year has passed and again have we to chronicle its work, which we do with peculiar pleasure and gratitude to the Giver of all Good, who, amid all the adverse circumstances which have surrounded us, has enabled us still to progress, and even complete this much of our sacred labors. To the members of this association it must be a source of gratification to know that the first portion of our task is done, and that we can now viest our cemetery—the sacred charge we have undertaken to keep—

sacred charge we have undertaken to keep—
without reproach. A glance within the neat
enclosure of evergreens will give to the beholder some evidence of the toil and care
of the past three years, and to us a full
compensation in the fact that our recording
tablets, now complete, stand in place to mark
each hallowed resting spot of the silent sleeper
below snatching as it were from the obliterating sandt of Time their names and position, so
dear to our loving and grateful hear's. Our
association, though we feel assured need no
reminder that our chief aim is not yet reached, the well-dose to our work not yet achieved, for though these headstones, simple as
they are, speak full eloquently to us—who
have witnesse! them—of the deeds of valor
and self-actrificing heroism of our unble and
martyred countrymen, yet our amoutton is to
proclaim to the world, and future generations
our estimation of shose who fell for the sacred
name of Liberty—alas, how vainly—and gave
their all, but honor, for its holy cause. The
sometime granute, we feel, will alone, bear the
sipproach of Time, and resust its encroachments, and for this end we hope.

Sometime years - ince, a few ladies of our
city made a collection of money, small though
it was having for its purpose that object; but
spon the formation of this association, it was
deemed both madmissible and umpracticable, in
the thee chaotic state of both public and private affairs, to pursue that intention, and after
free and open discussion it was resolved that
we would first rescue from accident'er oblivion,
in the mount lasting method possible, the names
of those to reverde and choreland, and then
work for a "menument," hoping the time
would be more anaptedous bearing the time
would be more anaptedous bearing the time

THIS NEW AND COMMON FOUR HOUSE, LOCATED corner of Broadway and Forty-second-street, possesses advantages over all other houses for the second modation of its guests. It was built expressly for a first-class, family bounding house—the rooms being large and en cuite, heated by steam—with hot and cold water, and fuscished second to mode; while the culinary department is in the most experienced hands, affording spects an unsequalled table.

One of Atwood's Patent Elevators is also among the 'modern improvements' and at the service of guests at all hours.

The Broadway and University Place Cars pass the door every four minutes, running from the City Hall to Central Park, while the Sixth and reventh Avenue lines are but a short block on either side, affording ample facilities for communicating with all the depots, steamboat landings, places of a scasement and business of the great metropolis.
